1-way connection = receive images only

2-way = can send and receive images between HCMC and the other facility

HCMC number for outside facilities requesting: Health Information Management line 612-873-3180 or Tech 24/7 phone: 612-873-2771 (ED radiology)

Workflow Process

1. Outside physician/ midlevel provider contact occurs with Hennepin MD for patient consult or referral. If images sent for referral or consult, this communication will be shared between physicians.
2. Outside physician will request their radiology site images be sent to HCMC.
3. Outside physician/ midlevel provider provides to the Hennepin physician the following information.
 - a) Image(s) that have been sent
 - b) Patient name and/or medical record number for this patient at their hospital

PRINTING NOTICE- Individuals using a printed copy are responsible that they are using the governing version.

TELERADIOLOGY (VPN) Systems Network List (Updated February 2024)

4. Hennepin physician opens and view image(s) on iSite via patient name or outside medical record within few minutes of sending.
5. 24/7 phone numbers are available at each site if difficulty with transfer of images or to request additional images.
6. HCMC Radiology: *Formal download of images to patient chart will be done at Hennepin Healthcare - HCMC once the patient has arrived and is in Hennepin's system. This is reviewed daily by radiology.*
7. Outside Radiology: *Formal reads from outside should continue to be sent to Hennepin Healthcare - HCMC once completed for records.*
